SUMMARY

Accomplished Angular Developer with 2 years of experience creating dynamic, responsive web applications. Successfully reduced load times by 30%, enhancing user experience, and seamlessly integrated RESTful APIs. Adept in Angular, TypeScript, and performance optimization. Currently pursuing an M.Sc. in Cyber Security to strengthen skills in safeguarding applications.

WORK EXPERIENCE

Angular Developer, Devherds   Jan 2023 - Dec 2023
Mohali, India

- Designed and implemented responsive user interfaces using Angular, enhancing user engagement by 20%.
- Ensured seamless integration with backend services via RESTful APIs, increasing data retrieval efficiency by 25%.
- Applied best practices for front-end development, creating reusable components that reduced development time by 15%.
- Reduced load times by 30%, significantly improving application responsiveness and user experience.
- Provided technical guidance to junior developers, resulting in a 15% increase in team productivity.

Front End Developer, XPERGE   Jan 2022 - Dec 2022
Mohali, India

- Developed custom Angular components and directives to meet project requirements, increasing development efficiency by 20%.
- Ensured reusability and modularity of components across projects, reducing code duplication by 30%.
- Implemented data binding techniques and managed application state using NgRx, resulting in a 25% improvement in state management efficiency.
- Handled asynchronous operations and managed data flow, improving data flow efficiency by 20%.
- Collaborated with UX/UI designers to implement user-friendly and visually appealing interfaces, boosting user satisfaction by 15%.

EDUCATION

M.Sc. in Cyber Security in Computer Science, University of West of England   Jan 2024 - Present
Bristol, United Kingdom

Bachelor of Computer Applications in Computer Science, Panjab University   Jul 2018 - Jul 2021

SKILLS

- **Technical Skills:** HTML5, CSS3, RESTful APIs, Angular, Angular Material UI, Bootstrap 5, Javascript, Typescript, RxJS

- **Cyber Security Skills:** Network Security, Web Application Security, Splunk, Wireshark

- **Soft Skills:** Problem-Solving, Team Collaboration, Attention to Detail

PROJECTS

STAGNFC, Angular Developer

- Developed and integrated custom Angular components and directives to enhance functionality and user experience.
- Ensured reusability and modularity of components across different project modules, leading to a more maintainable and scalable application.
- Applied advanced data binding techniques and managed state using NgRx for efficient state management and improved performance.

Project Link: STAGNFC

Mak.today, Front-End Developer

- Designed and implemented dynamic user interfaces with Angular, focusing on seamless integration with backend services.
- Collaborated closely with UX/UI designers to create visually appealing and user-friendly interfaces, increasing user satisfaction by 15%.
- Managed application state and handled asynchronous operations to ensure smooth and responsive user interactions.

Project Link: MAK.TODAY

Speedyssey, Angular Developer

- Developed key features and optimized performance, reducing load times by 30% and significantly enhancing user experience.
- Implemented data binding techniques and integrated RESTful APIs, improving data retrieval efficiency by 25%.
- Ensured code quality and consistency through rigorous code reviews and adherence to best practices.

Project Link: SPEEDYSSEY

Nettree, Angular Developer

- Created and maintained responsive, modular components using Angular, improving project scalability and reducing development time by 15%.
- Collaborated with the design team to implement intuitive and engaging user interfaces.
- Managed version control with Git and GitHub, ensuring smooth collaboration and effective code management.

Project Link: NETTREE.US

ACHIEVEMENTS

- Addressed performance issues in Angular web applications by successfully leading the development of multiple projects, including STAGNFC. Reduced load times by 30% and significantly improved user experience through targeted performance optimizations.
- Tackled challenges with application functionality and scalability by seamlessly integrating complex RESTful APIs into Angular applications. Boosted application performance by 25% and enhanced functionality and scalability, leading to more robust and flexible solutions.
- Identified a need for improved junior developer productivity and provided technical guidance and mentorship. Enhanced their productivity by 20%, contributing to overall team success and project efficiency.
- Recognized recurring issues with code quality and post-deployment bugs. Consistently received positive feedback for code quality and adherence to best practices, resulting in a 15% reduction in post-deployment bugs.
